Standard load steer and trailer position tire for long distance travel at high speeds.

TIRE FEATURES:

- 1 The column at the bottom of the groove improves the tire's self-cleaning ability and prevents groove cracking.
- 2 Four layer belt design promotes even ground distribution for longer mileage.
- 3 Optimized groove design improves safety and handling performance.
- 4 New low-heat build up and high wear resistance compounding effectively improve tire life.
- 5 Optimized contour design and material distribution balance stress distribution inside the tire to improve service life.
